MAJD CHAGROUFI

Senior SAP Basis & Authorization Consultant

majdchagroufi@gmail.com | +212 649 795 475 | Casablanca, Morocco (Open to relocation: Europe) **|**
linkedin.com/in/majdchagroufi | majdch.github.io/portfolio | English (Bilingual) · French (Bilingual) · Arabic (Native)

PROFESSIONAL SUMMARY

Senior SAP Basis & Authorization Consultant with 5+ years across 10+ enterprise engagements in Morocco, Africa, and Europe (France). Expert in S/4HANA 2023/2025 On-Premise installation (SWPM/HDBLCM), SAP HANA administration, SUM/DMO upgrades, and cloud-native identity governance via SAP IAS (SSO/IdP), SAP IPS (automated provisioning), and SAP IAG (BTP-native SoD enforcement and access governance — cloud successor to GRC AC), integrated directly with S/4HANA On-Premise. Skilled in SAML 2.0, OAuth 2.0, SSL/TLS, RFC/IDOC integration, and infrastructure automation (Ansible, Terraform, Azure, AWS). Engineering Degree BAC+5 / EQF Level 7. Bilingual EN/FR, Arabic native.

PROFESSIONAL EXPERIENCE

Senior SAP Basis Consultant · **Inetum Business Line SAP Africa** *April 2025 – Present*

Casablanca, Morocco

S/4HANA 2025 Greenfield Implementation — Agribusiness Client, Morocco

- Led the full On-Premise Greenfield installation using SWPM (primary and application servers) and HDBLCM (SAP HANA database); performed hardware sizing via Quick Sizer, SAP kernel upgrade, and transport landscape configuration (STMS) — Go-Live achieved with zero P1 incidents during Hypercare.
- Configured system profiles (RZ10), background job scheduling (SM36/SM37), spool/print management, and CCMS (RZ20) monitoring baseline; conducted post-installation system validation and Solution Manager landscape registration.

Tools: *SWPM, HDBLCM, SAP S/4HANA 2025, SAP HANA, Quick Sizer, STMS, RZ10, RZ20, SM36/SM37, SUM*

SAP Ariba Integration & SSO via Azure AD — Telecommunication Client, Morocco

- Installed SAP Ariba and configured RFC/IDOC connectivity with the SAP ECC backend; set up SSO via Azure AD as external IdP (SAML 2.0), managed certificate lifecycle in STRUST, and troubleshot authentication flows using SM21/ST05 — zero SSO incidents post-Go-Live.

Tools: *SAP ECC, SAP Ariba, Azure AD, SAML 2.0, STRUST, SM21, ST05, RFC, IDOC*

Cloud-Native Identity Governance (IAG/IAS/IPS) & SoD Management — Pharmaceuticals Client, Morocco

- Deployed a cloud-native Zero Trust identity architecture on SAP BTP, integrating directly with S/4HANA On-Premise — without a traditional GRC tenant: SAP IAS as the central Identity Provider (SSO/authentication via SAML 2.0), SAP IPS for automated user provisioning and deprovisioning, and SAP IAG as the BTP-native SoD enforcement and access governance layer.
- Configured SAP IAG access request workflows, access certification campaigns, and SoD risk rules mapped to S/4HANA business roles — eliminating all critical SoD violations from the pre-project audit; secured BTP-to-S/4HANA communication via SAP Cloud Connector and SSL/TLS (STRUST).

Tools: *SAP IAG, SAP IAS, SAP IPS, SAP BTP, S/4HANA On-Premise, SAML 2.0, OAuth 2.0, SOAMANAGER, STRUST, PFCG, SU01*

SAP OPPS & DMS Integration — Agriculture, Food Manufacturing & Beverage Client, Morocco

- Led integration of SAP OPPS with S/4HANA via SM59 HTTP/RFC connections, ICF service activation (SICF), and OAuth 2.0 endpoint configuration in SOAMANAGER; managed SSL certificate trust (STRUST) — zero security incidents post-Go-Live.

Tools: *SAP S/4HANA, SOAMANAGER, STRUST, SICF, SM59, OAuth 2.0*

SAP Authorization Training & FUE License Optimization — Agribusiness Client, Morocco

- Delivered SAP Authorization curriculum to junior consultants: PFCG role design, authorization trace analysis (ST01/SU53), SoD principles. Led FUE classification initiative remapping 100% of business roles to correct license tiers, materially reducing licensing TCO.

Tools: *PFCG, SU01, ST01, SU53, SoD Framework, SAP License Management*

Confirmed SAP Basis Consultant · VISEO North Africa *June 2022 – March 2025*

Casablanca, Morocco

SAP Authorization & Access Management — Luxury Fashion House, France (TPAM)

- Managed as part of team an end-to-end user lifecycle for 500+ SAP ECC users; 100% audit readiness, 0% SLA breach. Resolved access incidents via ST01/SU53; coordinated transports via ChaRM — 3 process improvements cut recurring incidents by ~30%.

Tools : *SAP ECC, TPAM, PFCG, SU01, SU53, ST01, ChaRM*

CUA Implementation & Fiori Launchpad Customization — Internal (VISEO, France)

- Deployed SAP CUA across 5+ connected systems, reducing user-administration effort by ~40%. Customized Fiori Launchpad themes, catalog and group assignments via PFCG.

Tools: *SAP CUA, Fiori Launchpad, PFCG, RFC, SU01*

ECC 6 Unicode Conversion — Global Fermentation Company, France

- Contributed as part of a technical team to the Unicode migration of a legacy ECC 6 non-Unicode system using SWPM; performed pre-conversion checks and post-migration validation with zero data loss.

Tools: *SAP ECC 6, SWPM, Unicode Conversion Tool, SPDD, SPAU*

SAP Content Server & Adobe Document Services — Internal (VISEO, France)

- Deployed SAP Content Server (reducing DB growth by ~20%/year) and configured ADS for PDF generation; validated end-to-end integration across all connected SAP systems.

Tools: *SAP Content Server, Adobe Document Services (ADS), HTTP RFC*

S/4HANA FPS Updates & HR Support Package Upgrades — Industrial Engineering Client, France

- Led S/4HANA FPS updates across SBX/QA/PRD using SUM: SPAU/SPDD adaptations, kernel upgrade, post-update validation — zero regressions. Managed HR SPS upgrades for full payroll regulatory compliance with zero post-upgrade incidents.

Tools: *SAP S/4HANA, SAP ECC, SUM, SPAU, SPDD, SAINT, SPAM, Kernel Upgrade*

SAP Business One → AWS Migration — Waste Management Client, France

- Collaborated in a 2-person team on the end-to-end migration of SAP B1 from on-premise to AWS: provisioned EC2/RDS instances, restored SQL Server database with zero data loss, validated licensing and connectivity in the cloud environment.

Tools: *SAP Business One, AWS EC2, AWS RDS, SQL Server*

SAP Basis Consultant · Inetum Business Line SAP Africa *September 2021 – May 2022*

Casablanca, Morocco

SAP Analytics Cloud Implementation — Healthcare, Banking & Distribution, Morocco

- Deployed SAC for 3+ client environments; configured BW-to-SAC Live Data Connections via SAP Cloud Connector; integrated Oracle and SQL Server external sources for unified analytics dashboards.

Tools: *SAP Analytics Cloud, SAP Cloud Connector, BW/4HANA, Oracle, SQL Server*

ECC to S/4HANA Brownfield Conversion — Bottling Distribution, Morocco

- Executed SAP Readiness Check, resolved all P1 pre-checks, and ran SUM/DMO including SPDD/SPAU adaptations and post-processing for the ECC-to-S/4HANA Brownfield conversion.

Tools: *SUM/DMO, S/4HANA Readiness Check, SPDD, SPAU*

SAP Infrastructure on Azure — Africa Region

- Provisioned Azure VMs per SAP sizing specs; automated VM scheduling via Ansible and Terraform; configured NSG rules achieving 99.9% system availability while reducing cloud costs.

Tools: *Microsoft Azure, Ansible, Terraform, PowerShell, Bash, Linux SUSE/RHEL*

PCoE Recertification — Internal (Inetum, Morocco)

- Managed PCoE recertification lifecycle; maintained Solution Manager 7.2 remote support connectivity; generated and analyzed EarlyWatch Alert (EWA) reports — corrective actions improved key system KPIs.

Tools: *SAP Solution Manager 7.2, EarlyWatch Alert, LMDB, SAP Support Portal*

SAP Basis Consultant (Intern) · Inetum Business Line SAP Africa *February 2021 – August 2021*

Casablanca, Morocco

SAP DSD Migration: Windows Mobile → Android — Bottling Distribution, Morocco

- Reconfigured SAP ECC backend for DSD platform migration; installed and configured SAP Web Dispatcher for HTTPS routing to mobile field-sales teams.

Tools: *SAP ECC, SAP Web Dispatcher, XAMARIN, Android DSD, ICM*

TECHNICAL SKILLS

SAP Basis & Admin	SAP S/4HANA 2023/2025, SAP ECC 6.0, SAP NetWeaver 7.x, SWPM, HDBLCM, SUM/DMO, SPAM/SAINT, SPAU/SPDD, Kernel Upgrade, STMS, RZ10, SM36/SM37, CCMS (RZ20), Web Dispatcher, ICM, SAP Cloud Connector, Fiori Launchpad, Solution Manager 7.2 (ChaRM, EWA, LMDB), SAP BTP, SAP Business One
Cloud Identity & Security	SAP IAS (SSO, SAML 2.0, IdP federation), SAP IPS (automated provisioning/deprovisioning), SAP IAG (cloud-native SoD enforcement, access request & certification — BTP-native GRC successor), PFCG, SU01, ST01, SU53, OAuth 2.0, SSL/TLS (STRUST), SOAMANAGER, SICF, SM59, TPAM, Azure AD federation
SAP HANA & DB	SAP HANA 2.0 (HDBLCM, admin, performance tuning, System Replication HSR, backup/recovery, HANA Studio, HANA Cockpit), SQL Server, MaxDB, MySQL
Cloud & Infra	Microsoft Azure (VM, NSG, Azure AD), AWS (EC2, RDS), Linux SUSE SLES / RHEL, Windows Server, Ansible, Terraform, PowerShell, Bash
Integration & Dev	RFC, IDOC, REST/SOAP, HTTP/HTTPS (ICF/SICF), XML, JSON, Python, Shell Scripting, GitLab, GitHub
Core Competencies	End-to-end project ownership · Technical leadership & mentoring · Stakeholder communication · Incident & problem management (RCA) · SLA/KPI ownership · Capacity planning · Architecture documentation (HLD/LLD) · FinOps · SAP Activate · ITIL

CERTIFICATIONS

- **SAP Certified Associate — SAP S/4HANA System Administration (C_TADM_23)** · SAP, Valid until 2027
- **SAP Certified Associate — Database Administrator, SAP HANA (C_DBADM_2404)** · SAP, Valid until 2027
- **SAP Certified Specialist — SAP S/4HANA Conversion & System Upgrade (E_S4CON2023)** · SAP, Valid until 2027

EDUCATION

Engineering Degree (Master-level, 5 years) — Computer Engineering, Information Systems & Decision Support

National School of Applied Sciences (ENSA), Tetouan, Morocco · 2016 – 2021

State-accredited 5-year programme (BAC+5) — equivalent to a European Master's degree (EQF Level 7).
